TEACHER FOR NEW DIVISION IS SELECTED

Miss Rhea King Chosen Instructor of Crippled Children's Class

NO ADDITIONAL COST

Local Board To Work In Conjunction with State Educational Department

Miss Rhea King Grand av yesterday was appointed instructor in charge of the class for crippled children at a special meeting of the Marion Board of education at Harding High School

Miss King has been a teacher at Vernon Heights Junior High School for a number of years and has had charge of girls athletic activities there She was formerly a teacher at Forest Lawn School

The class for the crippled children which is to be conducted in this city for the first time this year will be located in a room at Central Junior High School building Special equipment will be installed

In establishing a school for crippled children here the local board of education will work in conjunction with the state educational department which inaugurated a plan for the care of the children in Ohio several years ago No expense will be added to the community cost of school operation, according to Supt Jesse H Mason

Eligible Students

Children of the city who are crippled or in some way afflicted so that they are handicapped in attending regular school classes are to be enrolled in the new department All under high school age are eligible

No further action was taken to change the date for the opening of the schools later than Sept 12 The date for the opening was extended by the board at a meeting last week as a safeguard against the spreading of infantile paralysis

Offer Accepted

An offer of the state board of vocational education to reimburse the local board for the evening trade extension classes was accepted by the board The offer provides for night classes which might be necessary during the school year

All bills now standing against the schools of Marion were ordered paid yesterday, as soon as they are approved by the finance committee It was decided that all private tuition fees will in the future be collected monthly during the year beginning with the present school year

EXPEDITION TO SEEK REDFERN, LOST FLIER

Led by Indian Boy Group Will Search Orinoco Jungles

Rochester N Y, Sept. 3—A white Indian boy to whom the jungles of South America are home, and five men will leave for New York Monday afternoon with Richard O Marsh of Brookport, scientist and tropical explorer, to complete arrangement for their search of the Orinoco jungles for Paul Redfern, missing Georgia flier

Chepu, the 14 year old "white Indian" who has been studying in this country, together with Merrill Riddick, Rochester aviator and Elmer Ace, mechanician are the latest additions to the Marsh searching party

Richard Redfern, uncle of the lost flier, may also join the Marsh expedition

The party will be joined in New York by Dr Charles Breeder of the American Museum of Natural History

A scouting plane will also be acquired before the expedition sails for Caracas, Venezuela

REPORT DECREASE IN PARALYSIS EPIDEMIC

Situation in Ohio Improving, Health Officials Say

Columbus Sept 6—Asserting that the Ohio infantile paralysis epidemic "apparently, is dying out in districts where it has been most prevalent, state health authorities today clung to their openly voiced belief that the epidemic "seemingly is subsiding" in the Buckeye state.

Up to noon today 20 new cases had been reported officially this week to the state health department.

Cases reported this week are: Massillon, 4 Cincinnati 2 Toronto Jefferson County 1 Marion County 1, Newark 1, Alexandria, Licking County, 1, Cadiz, 1, Guernsey County, 1 Richland Township, Clinton County, 1 Stark County 4 Summit County, 1, Trumbull County 1 Cleveland, 1

Calls Off Conference

Dr John E Monger, state director of health, announced the calling off of the conference proposed for this afternoon by state health authorities for the purpose of formulating a standardized method of "after treatment" for children who pass through the acute phase of infantile paralysis

Instead of the conference, Director Monger explained surgeons and physicians will mail to Dr. Monger recommendations which will serve as the basis for the formulation of a standardized method of treatment.

BACK IN JAIL

Pair at Mt. Vernon Use Broomstick To Pick Lock

Mt. Vernon, Sept. 6—Ralph Fry, 20, is back in the county jail here today, after demonstrating the value of a broomstick as an aid to picking locks, county officials admit. Raymond Shults, 20, who escaped with Fry, early Sunday, still is at large.

Fry and Shults, it is said, obtained a key from a broomstick, and with this unlocked the other door of the jail, after having filed locks to their cells.

Fry, it is alleged, was arrested when an area he was driving, struck a traffic standard at Danville, near here.

OFFICERS DUE TODAY TO TAKE CHARGE OF HILL

Youth Accused of Slaying Mother To Be Taken Back to Illinois

SAYS HE IS INNOCENT

Gets Message from Father Telling Him Not To Fight Extradition

Seattle Wash Sept 6—Officers from Streator, Ill were to arrive here today to take charge of Harry R Hill 22 who faces trial in Streator Ill, for the murder of his aged mother, Mrs Eliza Hill

The youth was arrested here Saturday night after being trailed across the continent from Streator Although registered at a hotel here under the name of Jackson Hill readily admitted his identity He denied however, he was guilty of his mother's death maintaining he had fled because he was in trouble over some bad checks

Repeated attempts of officers to wring a confession from him have failed The youth despondent since his arrest, was more cheerful today having received a telegram from his father Dr H C Hill, stating he is convinced of his innocence and would spend his last dollar to prove it

News Pleases Him

"Dad's a brick" smiled young Hill "I knew he would stick by me"

The father also urged his boy not to resist extradition, but to come on home and clear your name

The extradition papers were sent from Illinois by air mail and should be in Governor Hartley's hands at Olympia today It is believed the governor will honor the requisition papers without question If no hitch occurs the prisoner should be back in Streator by the end of the week

Identity Doubted

Arrival of the Illinois officers were eagerly awaited here in order to clear up reports that the youth under arrest is not Hill It was intimated that the prisoner might be a friend of Hill's who sought to hold the attention of police until Hill himself could make good his escape Capt. Charles Tennant, Seattle chief of detectives says he is positive the young man in the city jail is Hill

OHIO METHODISTS OPEN CONFERENCE

Meeting in Delaware Marks New Event in State Church History

Delaware Sept. 6—This city became the mecca of Ohio Methodism today, when, marking a new event in the history of the church in the Buckeye state, three conferences convened in joint session at noon today

The bodies participating in the session were the Ohio conference, holding its 170th annual session, the northeast Ohio conference holding its 10th session and the west Ohio conference, holding its 35th session

The conferences were to hold separate business sessions, beginning at 2 p m, following a joint devotional meeting and the meeting will continue through the remainder of this week, with the pastoral assignments for the coming year regarded by many as one of the most important actions of the meeting scheduled for announcement late in the week

Bishops Joseph F Berry, Philadelphia William F. McDowell, of Washington and Luther B Wilson New York were presiding officers of the Ohio, northeast and west conferences, respectively

The sessions were attended by more than 1,000 ministers, and several hundred wives of ministers and other visitors were present.

Mrs. Corson In Channel Second Time

Mother Hopes To Conquer Choppy Waters from England to France

DOVER Eng, Sept 6—Mrs Millie Gade Corson of New York who set out from South Foreland at 8 50 o'clock this morning to swim the English Channel for the second time still was in the water late this afternoon

The accompanying motor boat, "Ocean King" was sighted shortly after 3 o'clock making in the direction of the South Goodwin Lightship and it was presumed that Mrs Corson was still swimming

Mrs Corson who won the title of "the first mother to swim the channel" swam the first time from the French to the English coast.

After five hours of swimming it was estimated that Mrs Corson had covered nearly eight miles At the end of that time she was coming down the channel on the ebb tide Between 1 and 2 o'clock a heavy rainstorm blew up The wind grew stronger causing rougher water and making her progress more difficult

Last year Mrs Corson swam from Cape Gris Nez France, to Dover The swim from England to France is conceded to be a much more difficult task due to adverse currents

If Mrs Corson succeeds in reaching Cap Gris Nez she will win the Dover gold cup offered by the Dover municipality to the first woman to accomplish a two way crossing

END OF SOFT COAL STRIKE IS LOOMING

New Wage Agreement in Sight as Conference Is Arranged

Chicago Sept 6—Termination of the coal strike that has tied up soft coal mining in Illinois Indiana Ohio and western Pennsylvania may result tomorrow from a conference of officials of the mine operators and the United Mine Workers upon here it was reported today

A new wage agreement based on the Jacksonville wage scale, is in sight, according to authentic information, and tentative agreements have already been reached by both parties of the conflict, it was said

That the strike had been definitely settled was denied by C E McLaughlin secretary of the Illinois Coal Operators Association

CRUISER IS "TAXI"

Lieut. Al Williams Will Be Transported to Races

Washington, Sept. 6—It is going to cost the United States Government a pretty penny to try to recapture the Schneider Cup, emblematic of the international airplane speed championship.

Lieut. Al Williams, who has been training for a year with a specially constructed plane, is to be transported to Italy, scene of this year's race, aboard the first cruiser Raleigh. The Trenton will be his "taxi" because the time is so short that a commercial steamer will not get him there in time.

President Coolidge gave his consent to the cruiser use to Italy.

Italy captured the Schneider cup last year at Norfolk. Williams's new plane is expected to fly faster than 300 miles an hour, and the navy is confident of American success.

40 DRY HEADS PALLBEARERS FOR WHEELER

Late Counsel of Anti-Saloon League To Be Buried in Columbus

SERVICES ON THURSDAY

Death Comes Suddenly to Man Who Forced Amendment Through

Columbus Sept 6—The 40 state superintendents of the national Anti-Saloon League will act as honorary pallbearers when the body of Wayne B Wheeler late general counsel of the league is born to its final rest here Thursday afternoon

Funeral services will be conducted at Central Methodist Episcopal Church at which Wheeler's wife was buried two weeks ago following her tragic death in the explosion of an oil stove at their Michigan summer home

Rev Albert Schatzman pastor of the church will conduct the funeral and national officers of the league including Dr F Scott McBride general superintendent Dr Ernest H Cherrington general manager of publication and Dr Howard H Russell founder of the league will assist in the funeral services

Wheeler's body was scheduled to arrive here at 1 25 p m today and it will be met by league officials and taken to a local mortuary where it will rest until final plans have been completed

WORLD MOURNS DEATH OF WAYNE B WHEELER

Battle Creek Mich Sept 6—The ranks of reformers and the world at large today mourned the death of a figure unique in the history of his country a man credited with being the moving force behind the passage of the most vehemently discussed amendment ever added to the Constitution of the United States He was Wayne B Wheeler general counsel and so-called generalissimo of the Anti-Saloon League who died at a sanitarium here late yesterday afternoon from a complication of kidney trouble and heart disease

Wheeler's body which was taken to a local undertaking establishment, was to be removed to Columbus Ohio by his son and a friend Dr Howard Hyde later in the day

It was understood that Wheeler's body would be laid to rest near that of his wife in the family burial plot in Cleveland Ohio Mrs Wheeler died but a few weeks ago as the result of burns received in the explosion of an oil burner at Wheeler's home in Little Pointe Sable Mich

Wins Recognition

Proponents of the famous dry leader say that few individual personages attracted to themselves such universal recognition through conscientious adherence to principles of convictions as Wayne B Wheeler For more than 30 years he has worked for the passage of a national law which would free the nation from what is termed the "grip" of intoxicating liquors, and since the last decade of the nineteenth century all his energies had been expended to ward that end

HUGHES CHEERS UP COOLIDGE BACKERS

Former Cabinet Member States He Is Not Candidate for Presidency

Washington Sept. 6—Friends of President Coolidge who still have hopes of "drafting" him for renomination next year were greatly cheered today by Charles Evans Hughes statement on returning from Europe that he—Hughes—is not a candidate and "is for President Coolidge"

The former secretary of state has been considered by capital politicians a potential candidate for the nomination himself, despite his statement last May that he was "too old" to stand for the presidency It has, in fact, been rumored in Washington political circles that Mr Hughes was Mr. Coolidge's first choice for the nomination in 1928.

Mr. Hughes' declaration that he saw nothing in President Coolidge's now famous statement that would preclude his again being the candidate coincides exactly with the view that the most ardent Coolidgeites ...

Newspaper Man Accompanies Fliers; Ship in Good Condition

Old Orchard Beach Me Sept 6—Old Glory raced along this broad white beach this afternoon swept gracefully into the air on a northwest breeze and started on its non-stop flight to Rome

The giant Fokker's golden wings and silvery body sparkled brilliantly in the sunshine of a wonderful September afternoon as the William Randolph Hearst plane climbed skyward out over the blue waters of the Atlantic

Old Glory went down the beach at 12 23 o'clock (Marion time), took off at 12 26 and a few minutes later was a mere speck in the clouds in the distant horizon

Hill Wins Toss

Those aboard the ship were Pilots Lloyd Bertaud and James Dewitt Hill and Philip A Payne managing editor of the New York Daily Mirror

Just before the start Hill and Bertaud flipped a coin and Hill won the toss and took the controls for the long hop to Rome

Old Glory will wing her way down the Maine coast over the Bay of Fundy, by Cape Sable then crosses to Bordeaux down the Alps and over these mountains to the Eternal City

The New York to Rome plane, which had been held at Roosevelt Field, Long Island because of adverse winds, came here Saturday night Since her arrival she has been thoroughly inspected by government agencies and pronounced fit for a transatlantic hop

Flight Developments

1—Levine postpones flight from England

2—Royal Windsor and Old Glory ready to start from Old Orchard

3—Courtney, in Spain, awaits better weather.

4—Macintosh, in Ireland, held up by adverse winds.

5—Brock and Schlee flew to Calcutta from Allahabad.

6—Sir John Carling hopes to leave for England today.

7—No trace of Redfern.

In Good Condition

All this forenoon mechanics went over every piece of mechanism to make sure Old Glory was absolutely in good mechanical condition Shortly after noon Bertaud, Hill and Payne came to the plane and superintended the placing aboard of provisions The provisions included a quart of soup, a dozen each of ham cheese, chicken, stuffed egg and "Shillalah" sandwiches four quarts of coffee a quart of orangeade and nine gallons of water Pilot Bertaud did not define a "Shillalah" sandwich

SWALLOWS RETURN

Birds Flying North Forecast Prolonged Summer, Belief

If traditions concerning the action of birds and their relation to weather conditions can be considered reliable Marion and vicinity are scheduled for more warm summer weather.

Swallows, which wing their way south when cold weather threatens, and which this year took their leave earlier than usual, are returning to their northern haunts. Large flocks have been seen passing over the city.

S. R. Reber, Mt. Vernon-av, a friend to birds and one who gathers much information relative to impending weather by a careful study of them, was the first to report the return of swallows.

"I've watched these birds for years and when they turn north after a premature cold spell it is a reliable sign that summer will linger," Mr. Reber said in reporting the incident. "Swallows, large flocks of them, have been winging their way north for several days."

GIRL CHARGED WITH SPEEDING, ARRESTED

That sex is not to be a factor in the war being waged by the police department on speeders, was shown yesterday afternoon when Ruth Roush, 17, of 393 Marion-av, was placed under arrest by Chief of Police J. W. Thompson after he had followed her from the south end of Prospect-st to north of the railroad tracks. According to the chief, the girl was driving between 35 and 40 miles an hour most of the distance. She was released on her own recognizance for her appearance in juvenile court today.

FINED $10, COSTS

Edward Bittinger, 37, of 859 Kenton-av, drew a fine of $10 and costs this morning when he pleaded guilty to a charge of intoxication before Municipal Judge William R. Martin. Bittinger was arrested on W. Center-st early Sunday morning.

If a girl can make a man jealous it's a sure sign that she has him going.

When a new girl comes to a small town all the boys sit up and take notice.

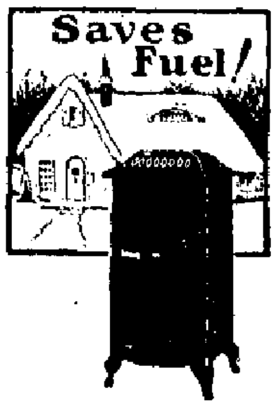
The Greatest Low Priced Parlor Furnace Made



Saves Fuel!

This Winter's Price Will Be $89.50
Price Now $69.50

When engineers design factory equipment that has to stand intense heat, what materials do they use? *Heavy sheet metal—and fire brick*—for instance, in steam boilers and cupola furnaces.

The Cabinet Heaters are made the same way. A book could be written on the advantages of these materials. But it is not necessary to go into details—as the efficiency of heavy sheet metal and fire brick are recognized by all. The idea is to make the heater so handsome that you will buy it and so good that you will keep it. When you buy this heater you buy more than iron and steel—you buy Winter Comfort for many years. Any four or five-room modern house can be comfortably heated—the reasonable initial cost and the economical operating expense of the cabinet introduces a new era in home heating efficiency.

Continued Favorable Reports on Business Trend Strengthen Market

MARKETS AT A GLANCE

Railroad stocks, strong; industrial stocks, firm; domestic bonds, firm; foreign bonds, firm; call money, 3½ per cent; cotton, recessionary; copper, firm; oil, irregular; cotton, firm; rubber, steady; sugar, steady; pig iron, steady; foreign exchange, steady.

New York, Sept. 6—After carrying its advance to record-breaking peaks for all time, the stock market hesitated and faltered today in one of the most [illegible] sessions of the year.

Motor and steel stocks, with a few high-priced specialties and high grade "investment rails" were in the forefront of the new advance. U. S. Steel, General Motors, New York Central, duPont, Woolworth and other of the [illegible] stocks on the big board exhibited a buoyant tone as buying orders flowed into the market at a rapid rate and sharp advances took place where offerings were restricted, or below the volume of immediate demand.

Reports Favorable

A number of the prominent "business barometers," including the Harvard University economic service, issued a series of favorable comments of actual and prospective business conditions. Harvard finds that the recession in business this year was not greater than the usual seasonal decline, while heads of the mercantile houses reported enthusiastically on the volume of business done in the last month or so.

As usual, the market was called on to absorb a heavy volume of profit-taking after the first burst of speculative enthusiasm but the increase of speculative selling in some sections of the market had little effect on the industrial favorites, which continued their spectacular rise. General Motors went through to 232 3-4; U. S. Steel to 148 1-2; Nash Motors to 90, and Great Northern preferred to 102 1-2, while New York Central established a new high above 159.

Nash Leads Motors

Nash motors jumped into the lead of the popular motor stocks today, with a new 5-point lead to 90 1-2. Talk of larger earnings and a higher cash dividend has accompanied the spectacular and persistent rise of this stock from 65 to its present price in a few weeks. Hudson and Chrysler sold off on profit-taking, but the bulk of the motor shares showed the effect of excellent support. Allied Chemical pushed through to 165 for a new 4-point gain, up about 30 points from the low of last month.

LOANS UP TO $500

Going to the movies tonight? Well, have a good time.

It's a mighty good show—a love story with plenty of action and romance and your favorite star leads the cast. Of course you'll enjoy yourself unless there are a lot of debt worries that keep you in mental "hot water" every minute.

When folks can no longer enjoy their recreation the chances are ten to one that there are "too many bills." Consider the matter of borrowing the money at The City Loan to pay them—confidentially of course. With only this one moderate payment to make each month you should be able to thoroughly enjoy play-time in the future.

A. E. Chambers, Manager.

LORD CECIL QUITS

Lord Robert Cecil, considered the chief British supporter of the League of Nations and an advocate of world peace measures, has resigned from the British cabinet, announcing that the cabinet's attitude toward the United States in the recent disarmament conference is the prime reason. "I believe a general reduction and limitation of armaments essential to the peace of the world," Lord Cecil said.

When a woman loses the affection of a man, she should look to herself for the reason. Often a case of halitosis (unpleasant breath) is to blame. It is the unforgivable social offense which threatens friendships, jobs and even love affairs.

* * *

The one way to avoid such offense is to rinse the mouth with Listerine every day, and especially before meeting others. Immediately, Listerine removes every trace of unpleasant odor. Don't fool yourself that you never have halitosis. Due to modern habits, it is all too common. Write for free book of etiquette. Lambert Pharmacal Co., Dept. ACCORDING to Browne: The sun alternately warms [illegible] and, relatively, cools [illegible]. The cycle [illegible] 11 years.

Maximum temperatures follow the [illegible]. Every 11th year we're due for extra cold weather. Our cycle, however, is three years behind the sun's. Why? Because it's the sea, rather than the solid earth, which [illegible] plenty of [illegible] of water. The [illegible] warming and cooling waters [illegible], and affect the climate [illegible] currents flow, and it takes [illegible] three years to trace the [illegible].

THE weather bureau [illegible]. If it does, the bureau [illegible] that the [illegible] to have any appreciable effect on earthly weather. [illegible] that the Marvin [illegible] reported that [illegible] next to nothing, because of [illegible] other elements that have to be taken into account.

[illegible] ocean temperatures [illegible].

In short, the bureau treats the Browne theory as bunk.

That means may yet be found to make long range forecasts, the bureau folk admit. They insist only [illegible] that no method has yet been discovered to warrant a prediction for a range of more than a few days.

BROWN isn't a scientist. Nobody [illegible] has [illegible], as [illegible] a scientific question, against the word of the weather bureau experts, who are. He wouldn't ask it himself.

He got into the forecasting business accidentally. Originally he was [illegible]

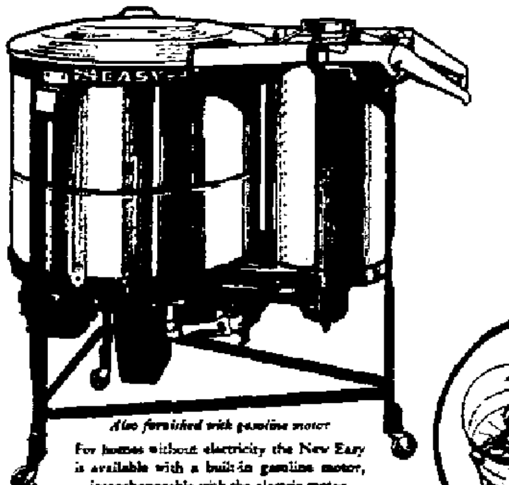
No wringing to do.. no water to empty

This new EASY WASHER saves you work in many amazing new ways



Also furnished with gasoline motor

For homes without electricity the New Easy is available with a built-in gasoline motor, interchangeable with the electric motor.

Here's how the Easy empties the water for you, electrically, without your using a bucket to lift or carry a single drop.

THE New Easy Washer does away with a wringer. It extracts the water from clothes by means of a wonderful new drying tub that takes a full eight-sheet batch at one time. Just move a lever—the drying tub does the rest. In three minutes the clothes are ready to hang out—so dampdry that even the heavy seams will not drip water.

Think of it—no more danger of catching fingers. No more worry about the children's safety. No more broken buttons. No more deep wrinkles in clothes. Less sewing and ironing.

And more—you don't fuss with a hose or strain your back lifting pails of water to empty the Easy Washer. All water is handled for you.

Two things done at once

The New Easy has a big capacity, which is adjustable for small loads. The washtub holds eight double sheets or the equal in other clothes. So does the drying tub. Both tubs work at once, and by thus washing and drying at the same time, the Easy cuts the job right in half. That's why you are never hurried despite the amazing speed with which the New Easy does a complete washing.

So many modern features

Blankets, quilts, feather pillows, and similar bulky objects are easily washed and dried in the New Easy. The famous Vacuum Cups and the new drying tub are just as gentle with the clothes as your own careful hands. A special gas heater keeps the water hot indefinitely. A "reservoir system" of oiling saves you all mess and trouble by automatically carrying oil to the working parts. There is no old-fashioned leather belt to slip or break. There is even an automatic starting and stopping switch that prevents fuses from blowing. As smoothly and quietly as a fine motor car does the New Easy run, and it lasts for years and years.

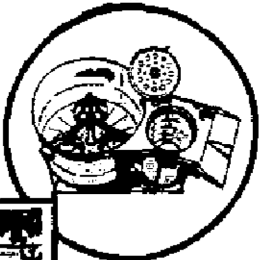
You can even wash and dry pillows in the New Easy, without removing the feathers.

Sixty times a minute the Easy's three famous Vacuum Cups move up and down, gently flushing soap and water back and forth through the fabric by air pressure and suction.

Here the cups are gently drawing the soap and water back through the fabric by suction.

HOW MUCH DOES IT COST?

The cash price is only a little more than that of old-fashioned washers. Small enough when it means clean clothes for the rest of your life; when it gives you washdays free from toil and weariness; when it keeps you fresh, youthful and happy. If you wish to purchase the Easy over a period of months, you can arrange the payments to suit your purse, with a nominal charge for this service.



Here you can see how the Easy gets its speed. One tub for washing, another for drying, and they both work at once. The dryer basket in the small tub will hold a full eight-sheet load.

Johnny got a new a dime's worth and that felt very uncomfortable to feet browned and toughened by going barefoot. Sis er got a new calico dress or two. With a few additional items including a nice lunch box or tin bucket with a cap on top the preparations for starting to school were complete.

But today in getting children ready for school the chief item of interest should be the physical preparation.

Before entering school every child should have a very careful and complete physical examination by the family physician. Vaccination against both small pox and diphtheria should be performed, diseased teeth should have attention, diseased tonsils should be removed, malnutrition should be noted and a regime outlined for its correction, posture should be corrected where necessary, feet should be carefully examined and fitted, eyes should be included in the examination and any faults or refraction corrected.

In the modern scheme of things the man or woman needs every particle of physical advantage that can be given. No longer does medical science advocate waiting until something goes wrong with the human machine before giving it attention. It is recognized that modern medicine reaches its highest pinnacle of accomplishment in *the prevention* of disease.

Have the child thoroughly examined and all defects corrected that are correctable. *Only by following this rule* can the child be given the chance that modern life should guarantee him. Only in this way may the mental development of the child reach its highest efficiency.

GRANGE WOULD DELAY COURTHOUSE PROJECT

Members Unanimously Indorse Proposal To Postpone Remodeling Program

Postponement of plans for the improvement of Marion County's courthouse is being advocated by members of the Marion County Pomona Grange.

Official action was taken Saturday night when members of the grange unanimously indorsed the proposal to postpone presentation of the necessary bond issue to voters at the November election. In the discussions preceding this action it was indicated that the proposed courthouse reconstruction program should be held off indefinitely or until a time when financing would be less difficult.

The mock marriage of Senator Buckeye to Miss Ohio which was to have been a feature of the program of entertainment was postponed until the next meeting on the first Saturday in October.

The lecture hour program opened with a recitation by Mary Owen Bowling Green Grange and a reading by Mrs. Grace Schwaderer Mt. Olive Grange. A dialog was given by Melvin Horn and Sherman Helwig Grand Prairie Grange. Another reading was given by Mrs Paul Owen, Bowling Green Grange. Several piano selections were given by Mrs Rosa Woodberry of Montgomery Grange.

It was decided to hold the election of officers at the next meeting.

HERE'S MORE ABOUT
WHEELER'S DEATH
STARTS ON PAGE 1

the Wheeler's creed of bone-dry legislation assumed sizable proportions in the early years of the twentieth century and the Anti-Saloon League became a force that politics realized would have to be reckoned with When in 1915, the Eighteenth amendment was passed by the congress of the United States Wheeler's prognostications and hopes had been realized and he soon came to hold the distinction of being the man who had seen a nation accept as law the doctrine of his life

Born in Ohio

Wheeler was born on Nov 10 1869 on a small farm in Brookfield Ohio It was during his boyhood on this farm he told reporters a short time before his death that Wheeler had first inculcated in his mind an aversion to liquor the occasion was when a drunken farmhand rammed a pitchfork in young Wheeler's leg He said the astounding inefficiency and carelessness of the farmhand a good hay tosser when sober brought a message to him to send through the length and breadth of the world

Wheeler received his education at Oberlin College in Ohio While a student there he was brought to the attention of the Rev Dr Howard H Russell one of the founders of the Anti Saloon League who was in search of an assistant Dr Russell found the youth in the janitor's quarters of the college for young Wheeler was helping to pay his way through college by taking care of the building He also sold books peddled rug making machines and taught rural schools during vacations

Accepts Dry Post

Wheeler did not jump at the proposition Dr Russell offered him for at that tender age he had not thought seriously of making temperance or prohibition work a career However after careful consideration and probably remembering the pitchfork episode he accepted

That was in May 1893 and from that day until the day of his death Wheeler served the organization He rose gradually through all the ranks of the league organization withstanding many bitter attacks and weathering the days when the exhortations of its workers fell upon the ears of a world none too willing to listen

Wheeler made a special study of the legal side of prohibition a phase that became of great importance with the ramifications of the dry war Wheeler found himself pitted against such a political figure as Mark Hanna when he was striving to muster enough supporters to make prohibition a national political issue It was at that time that Hanna said to him

"Young man your kind of people are all right at a prayer meeting but they are no good at a caucus

Death Sudden

Whereupon Wheeler replied

"Well sir we will see

The outcome was a defeat of the Hanna candidate for the Ohio senate

In the years that followed the adoption of the eighteenth amendment Wheeler directed the national political activities as well as the legal affairs of the league He figured prominently in the drafting of the Volstead Act and in selecting the legislator whose name the famous statute bears

Wheeler's death was sudden He was stricken some weeks ago but had been in the sanitarium only three days At 3 o'clock yesterday afternoon Wheeler was apparently well and in good spirits He was sitting up in bed reading He suddenly lurched forward as the nurse physician and members of his family were at the bedside An examination showed he had died instantly when the attack came

Dr Lloyd C Verity announced that Wheeler's death was caused by a heart attack aggravated by kidney trouble

Wheeler Given Credit

To Wheeler rightly or wrongly has been given the credit for the accomplishment of constitutional prohibition in the United States Wheelerism his opponents have characterized it. Starting soon after the turn of the century the little Ohio lawyer grimly set about the business of making America dry He foresaw more than a dozen years ago that while it would be possible to dry up most of the states through state action it would never be possible to reach those great wet spots like New York and Chicago without national action So he started applying to congress the same weapons he had used so successful on various state legislatures He worked ceaselessly methodically and always efficiently The result was the adoption of the eighteenth amendment and the Volstead Act when the opportunity came to strike during the war period

Likened To Gary

One of his opponents once said that for efficient organizing and executive ability Wayne B Wheeler was the Judge Gary of the prohibition movement

In the speculation as to his successor today three names were prominently mentioned—Bishop James Cannon, Jr chairman of the league's campaign committee Dr F Scott McBride, general superintendent of the league, and Dr E C H Cherrington of Westerville O the home of the league

Whether the mantle of Wheeler will fall to one of these remains to be seen but irrespective of where it falls the belief was universal among politicians in Washington today that the prohibition movement has lost its greatest driving force

Death Comes Suddenly to Noted Theatrical Leader

New York Sept. 6—Marcus Loew whose name is identified with the motion picture industry around the world died in his sleep at his palatial home in Glen Cove, L. I. yesterday

The owner of the nation-wide chain of motion picture and vaudeville theaters had been ill for three months He first was stricken with pneumonia and after his recovery he had been seeking to regain his health in travel and medical treatment

Two weeks ago accompanied by his physician and nurses, he went to Saratoga Springs hoping that rest and a course of treatment there would renew his vitality

Returns in Yacht

Mr Loew returned Sunday to his Glen Cove home on his yacht Caroline and retired early

Yesterday morning it was found that he had died in his sleep An examination by his physician revealed that death had occurred near 7 o'clock

Mr Loew was 57 years old May 7 He was born in New York in the old East Side which has produced so many self made men In 1894 he was married to Carrie Rosenheim

Loew is recognized as the first man to foresee the tremendous future of the motion picture industry and he has been riding at the crest of that industry ever since At the time of his death he was the president of nearly 100 theatrical corporations

Remarkable Career

Having arisen to such industrial heights from the squalor of the old East Side there was a fiction like touch to his conquests that linked his name with many writings dealing with success and its achievement in the face of obstacles

EIGHTH DEATH IN MAD ORGY

Man Struck by Stray Bullet in Youngstown Murders Dies

Youngstown Sept 6 The toll of lives taken by the pistol of Tony De Capua who Saturday in a sudden fit of insanity perpetrated the most shocking orgy of murder the city has ever known reached eight today when Fred Gutwiske 73 died in a hospital

Gutwisky had no part in the affair but was struck by a stray bullet during the gun battle between De Capua and police A few minutes before De Capua crazed by unemployment and poverty had shot to death his wife four children and two small grandchildren and seriously wounded his daughter in law Mrs Gelette De Capua

As he started to reload the pistol a police patrol wagon drew up in front of the house and De Capua rushed into the front yard and met the officers Patrol Driver Leo Tyrell was shot in the leg and at least two spectators wounded before De Capua was himself shot in the abdomen and captured

Police reported that De Capua made an attempt to escape from City Hospital last night A guard is maintained in his room He refuses to answer questions is extremely sullen and apparently demented according to police

Daily Proverb—"The thief is sorry that he is to be hanged, not that he is a thief."

Great pressure from New York is being exerted to secure the parole of Earl Carroll. Is there no one else in New York City capable of putting on a bath tub party?

Secretary Wilbur says "the American flag flying in Nicaragua is a symbol of peace." Huh! It's brought mighty little peace to the disloyalists and other foes of our government living up here.

Girl judges awarded first honors to a youth in his early twenties at a male bathing beauty contest out at Venice, California. Watson, bring the formaldehyde!

Aside from the fact that it needs a new roadbed, new ties, new rails and new paving, that section of the local Toonerville trolley line running northward from Center street is in pretty fair shape.

A Philadelphia paper, speaking of the death of a young member of its reportorial staff, refers to him as a journalist. Hardly fair thus to speak of one who is no longer here to defend himself.

About all the followers of Carlo Salgado, so long held out to us by disloyal organizations and individuals up here in the United States as the "great patriot" of Nicaragua, have surrendered to the authorities. All the fun was taken out of shooting up and pillaging towns when the authorities began to shoot them down as bandits.

Talking about adding insult to the injury inflicted upon us true aristocrats of the land, the Keystone Motorist remarks: "Autoists run across many curious things in their travels and over some."

A Maryland woman has sued a wealthy citizen of that state for $60,000 damages for breach of his promise to marry her, and it will serve him right if he has to come across with every cent of the amount sought. He had no business to do her out of a chance to sue him for divorce and get anywhere from $50,000 to $500,000 as alimony.

The probable reason why New York City producers have not exploited male nudity upon their stages as they have female is their fear of starting something like a magnified bargain rush.

Hereafter all cheese made in Switzerland is to be marked "Switzerland" cheese, the Switzerland Cheese association having recorded that name with the International Patent union. The cheese-makers of Switzerland in other words, propose to let the world know that there is something in real Swiss cheese beside the holes.

The treatment of the small powers in the League of Nations by the large is said to be one of the reasons why Viscount Cecil resigned from the British cabinet. In a word, Viscount Cecil was out of sympathy with the British government's part in making the league council an organization of national snobs.

A purse of $1,400 was given a New York City policeman for killing two silk thieves. A few rewards like that and those of a thieving tendency are going to lose some of their nerve. Even the most-hardened criminal doesn't enjoy the thought that rewards are to be given to any who may slay him.

Good Faith and Fitness.

We note that the county auditor in his report tells us that the total tax distribution in Marion county last year was $2,054,197.65.

That's an awful lot of money. Still, there's no ground for fault on that score if we have received value for it. Has the governing of our county and such improving as it has received been worth that amount? If it has, well and good. If it has not, then a change in the handling of such matters should be accomplished. And this should hold true in all the various divisions of the county and in all the channels for which money has been paid out.

The people of any division should ask the question: Have we received value therefor? Here in Marion we should ask, Have we received value for the $[illegible] we have paid out exclusive of the cost of running the schools of the Marion school district? Have we received value for the $421,972 paid out for running such schools?

If the voters are satisfied that these questions should be answered affirmatively, then there can be no ground for complaint. If the answers are in the negative, then there is ground. If those selected, either by direct vote or through the instrumentality of delegated authority, to hold office and perform certain duties has been honest and faithful and worked for the best interests of the division in which they labor, they are entitled to the support of the voters and should receive it. If they have not they should be separated from their jobs at the earliest opportunity possible with the law, and this should be done regardless of any and all the many conditions which so often have their influence in politics. The time has come when good faith and fitness and not politics should prevail in local government.

Wayne B. Wheeler.

The death of Wayne B. Wheeler will be deeply mourned by a large element of the citizenship of the United States. His sudden passing in a sanitarium at Battle Creek, late Monday afternoon, coming as it did upon the heels of the announcement by his physicians that he was showing decided improvement, was a shock to the entire country.

It is understood that he was taken by a heart attack caused by kidney trouble from which he had been a sufferer for several years and which no doubt was augmented by the awful death of his wife as the result of an oil stove explosion three weeks ago, which also resulted in the death of her father from shock.

Wayne B. Wheeler will go down in history as a notable figure of his time, and it will probably be said of him that few if any of his contemporaries had as great an influence on the history of the country. Those who did not agree with him in his views on the merit of prohibition will readily admit his ability and force and pay tribute to his merit as a fighter in behalf of the causes he championed. No matter what reverse he received, he came back smiling, and he seemed to gain force by any temporary defeat he may have suffered.

Working his way through college as one of its janitors, Wayne B. Wheeler, it may be said, was drafted into the service of the Anti-Saloon league somewhat against his inclination. Employment taken by him which he supposed would be temporary became permanent and at fifty-eight he died general counsel of the league. For years, under one title or another, he had been its most notable figure. It was manifest that title meant little to him. Having become interested in its work, he followed it at what unquestionably was great financial sacrifice, for his ability would have enabled him to have gone far in the legal profession.

As it was, he passed as the general counsel of the league, as we have stated, but for years he had been generally recognized as its brains.

"How to Save the League" has now become a subject for discussion. Were the League of Nations what it has been held out to be, there would be no necessity for discussing methods for preserving it.

An insurance man says there are fewer accidents on the streets since women almost universally have taken to short skirts. We assume the men folks have become so accustomed to exhibitions that they watch traffic now instead of rubbering at 'em.

"We must assist the rural communities to achieve the highest possible standard of living on their incomes," says Secretary of Agriculture Jardine. Why limit the thing to the rural communities, Mr. Secretary? Why not give assistance to all of us? When it comes to living on our incomes in this day of the auto, the radio and the talking machine, so comparatively few of us have learned the trick.

The manager of the Amtorg Trading corporation in New York City, an organization of soviet Russia similar to that driven out of London, denies that his corporation sought to buy from 150,000 to 200,000 rifles from a New York firm, and was prevented from so doing by the voiced displeasure of the American government. Typically bolshevikian. Of course his corporation didn't try to buy them. It had another corporation with which it deals endeavor to get them for it.

WE'RE LEARNING TO FLY I GUESS— BUT AT WHAT A COST!

Plenty of Water a Good Tip.

BY ROYAL S. COPELAND, M. D.

A few days ago the richest man in the world celebrated his eighty-eighth birthday. Mr. Rockefeller played golf and visited with his friends, hardly conscious of his great age.

As usual this young-old man was asked for the rules responsible for his good health. Here they are:

1. Don't worry.
2. Don't acquire overweight.
3. Drink three quarts of water every day.
4. Exercise daily.
5. Sleep in fresh air.

Of course I wouldn't worry much if I had Mr. Rockefeller's income! Would you?

But the trouble with the money business is that your funds have to be kept invested and safely invested. My observation of rich men convinces me they have much to worry over and I'm not surprised that they do worry.

Suppose I gave you $50,000, the principal of which you could not touch, but with the understanding that you must live on the income from the gift. How would you invest it?

This would worry you, and I have no doubt most rich men are worried over the problem of investment. They are on pins and needles till they have read Wall Street's "closing quotations."

So when Mr. Rockefeller advises against worry he is voicing an advice for everybody.

Acquiring overweight is a mistake. I refer to it as a "mistake" because in most instances it can be prevented.

It is foolish to practice all the violent methods recommended by those who would snatch weight from the body. Taking off flesh is a real undertaking, but Mr. Rockefeller chooses his words wisely when he says: "Don't acquire overweight."

There is the secret of slimness. Stay thin. Don't permit yourself to get fat.

The next bit of health advice is, Drink three quarts of water every day.

Perhaps three quarts is more than you need, but in addition to the fluid absorbed from the food, you should take at least two quarts of water daily. If you have a good heart and good kidneys, three quarts will be even better.

Everybody should drink eight glasses of water every day. How much do you take? Two glasses perhaps. No wonder you have constipation and indigestion. The waste materials can not be dissolved and carried away without quantities of water.

To exercise daily and to sleep in fresh air are fundamental health rules. They should be observed by everybody in the world.

My old friend, Dr. Biggar, gave Mr. Rockefeller these rules of conduct. But Mr. Rockefeller is better than a lot of my patients—he does as he is told. My closing word for today is this: Follow your doctor's advice and you will live to be eighty-eight. You may not get rich in money, but you will be rich in health, good temper and a multitude of friends.

From Our Readers.

THE HARDING IS A NATIONAL HIGHWAY.

Editor Star:—Your valuable paper under date of August 29, 1927, contained an article by Hon. Brent Fletcher suggesting a plan for restoring the names of Harding and Lincoln as highway markers. We appreciate very much Mr. Fletcher's kindly interest, past and present, in the Harding highway. We also heartily agree with him that the names of Harding and Lincoln should be restored to these highways.

Unfortunately, however, Mr. Fletcher's article contains several paragraphs which would indicate that the Harding highway is not national in character. This is not in accordance with the facts, and it is to correct any erroneous impression which may have been created in the minds of the public that I am now writing you. I am doing this at the request of many of the friends and supporters of the Harding highway and also because the officials of our association and the writer personally feel that such erroneous impression, if any, should be corrected.

The paragraphs to which we take exception are the ones in which it is stated that:

"The Harding highway, so far as the bureau of public roads at Washington is concerned, never existed outside of Ohio except possibly a small portion in Indiana, and had no national recognition except in Ohio."

Also other paragraphs which indicate that highway officials of other states refused to recognize the highway or to cooperate with us.

Mr. Fletcher's communication seems to indicate that he received his information from the bureau of public roads at Washington, a source which, of course, he was justified in considering reliable.

The facts are that in March, 1925, shortly after the government announced its plans for the uniform marking of federal highways, the writer personally called at the office of the bureau of public roads in Washington and laid before that board maps and plans and other data showing the national character of the Harding highway and strongly urged that the Harding highway be recognized as one of the federal routes across the United States. I have before me now a letter dated August 11, 1925, from the secretary of the bureau of public roads, addressed to the secretary of our association in which it expressly refers to the route of the Harding highway from Washington, D. C., to Denver, Colorado. Also [illegible] other correspondence from the bureau, which [illegible] of the national character of the Harding highway. [illegible] the Harding highway through [illegible] states.

The statement that we have not been given official recognition by any state highway department other than in Ohio is also in error. At our annual meeting of our National association held in Chicago last January, we were honored by the presence of the state highway directors of the states of Iowa and Nebraska, who took part in our deliberations and made valuable suggestions for the improvement of the Harding highway through their states. We [illegible] in Iowa and [illegible] state is spending over $[illegible] [illegible] the Harding highway [illegible]. In [illegible] the Harding highway is [illegible] [illegible]. We also have strong organizations [illegible] these states. We believe that the [illegible] is the most direct route from Washington to San Francisco and that [illegible] completed than any other [illegible].

What are the true facts [illegible] Harding highway?

The Harding highway is a great national [illegible] highway [illegible] of our late President Warren G. Harding.

The Way of the World.

BY GROVE PATTERSON.

George Eliot once said that [illegible] greatest [illegible] has been a [illegible]. The [illegible] fact remains that the greatest [illegible] we can do [illegible].

The thing the [illegible] of the [illegible] [illegible] [illegible] it never occurred to them [illegible] would something today that would [illegible] for [illegible] a year from today. [illegible] didn't have the capacity for thinking [illegible]. The lack of that capacity has made [illegible] [illegible].

The head of a great corporation said: "I am paid for thinking five years ahead. That's what my board of directors wants to hear about."

Pointing through his glass door he said: "See that crowd of clerks and bookkeepers out in the big room? They are paid for writing down what happened yesterday."

John Warwick is right. He says [illegible] the [illegible] who are trying what [illegible] to improve the world were to do [illegible] they advise the rest of the world we'd fall in line and bring the perfect day.

It's easier to teach my mouth than my footstep.

A king passing the hut of a hermit said to the hermit:

"Come with me and I will give you power."

"I have all the power I know how to use," replied the hermit.

"Come with me," said the king, "and I will give you wealth."

"I have no wants that money can supply," replied the hermit.

"Come with me," said the king, "and I will give you honor."

"Honor can not be bought; it must be earned," was the hermit's answer.

"Come," said the king, in a last appeal, "and I will give you happiness."

"No," said the hermit, "there is no happiness without liberty, and he who follows can not be free."

"But I will give you liberty," cried the king.

"Then I will stay where I am," said the old man.

And all the king's followers thought the hermit was a fool.

An old proverb says to "suit your manner to the man." But that does not mean to change your convictions with every caller.

Men who dislike physical exercise should live on a mountain top. Major Coupal, the president's doctor, says a mile walk at 4,200 feet above sea level is equal in benefit to four miles at sea level. If golfers lived on hilltops they would only have to play a couple of holes and call it a day.

Views of Those in Public Eye.

BISHOP WILLIAM T. MANNING.

Bishop Manning was born in 1866, and received his D. D. degree from the University of the South in 1893, becoming professor of dogmatic theology at that institution in 1893. He went to New York in 1903 as vicar of St. Agnes' chapel. The Rev. Mr. Manning was consecrated bishop of New York in 1921. He has received the Chevalier Legion d'Honneur, from France, and the Belgian Order of the Crown.

Bishop Manning holds that much was accomplished at the Lausanne conference. He says:

"Much was accomplished for Christian Unity at the World Conference on Faith and Order at Lausanne.

"Some have expressed disappointment that more definite action was not taken toward reunion. My own judgement is that more was accomplished than could reasonably have been hoped for. It should be kept in mind that it was not the purpose of the conference to formulate terms of reunion. Only the different churches themselves could do this.

"Two outstanding things accomplished by the conference were:

"First, the differences in belief which now separate the churches were frankly faced, and considered not in the spirit of controversy, but of conference. A discussion of differences in this spirit would have been impossible twenty years ago, and itself marks a great advance on the way to unity.

"On some of the most difficult subjects relating to reunion a surprising measure of agreement was reached as will be seen from the official reports soon to be published on 'The Gospel of the Church of Christ;' 'The Nature of the Church,' 'The Common Confession of Faith,' 'The Ministry,' and 'The Sacraments.'

"These reports, all of which were received without a dissenting vote, are to be commended to the churches for their consideration. While some of these reports are far from registering full agreement, they show encouraging advance toward it.

"There is much yet to be done before reunion can be achieved, but the World conference at Lausanne has marked an important advance and will give new impetus to the movement toward unity."

Editorial Comment.

TEACHING SAFETY.

Each week in Massachusetts the registrar of automobiles makes an appeal to the people of the state to exercise greater care and help prevent the loss of life from traffic accidents. For a year he has been working on his own plan and has brought the lesson of safety to the attention of the public in a striking manner.

The appeal is made each Monday and appears in newspapers all over the state. It occupies a space double column in width and about five inches deep. A heavy black border is provided, the heading is in large type, In Memoriam, just below which is the following statement:

"The commonwealth of Massachusetts mourns the passing of the following citizens, reported during the past week as having lost their lives in automobile accidents."

Then follow the names of the traffic victims, their age, residence and their part in the accident, pedestrian or occupant of the car. In each recent week there were [illegible] deaths, three car occupants and [illegible] pedestrians. Below the list of names the registrar makes this statement:

"It is easy to get going again, but not at all easy [illegible] the appeal or bring back to life the [illegible]. Regrets do not help."

The greatest newspapers in the state give the space gratis each week for the announcement made by Registrar Frank A. Goodwin. They place a heavy black border around it and give it a prominent position, many times on the best page of the paper. [illegible] It has been quite a bit of news [illegible] each week, and its peculiar appeal must have brought the need for safety vividly before the eyes of many.

New York Day by Day.

BY O. O. M'INTYRE.

New York, Sept. 6.—New York is the greatest [illegible] town in the world. The [illegible] is to Manhattanese what the [illegible] to Los Angeles or circular bar to [illegible]. They have in a way taken place [illegible] saloon as a meeting place.

[illegible] has regulars just as did the [illegible] bar. It is not unusual to find [illegible] to a block, sometimes a dozen. It is [illegible] serving of meals that gives them their [illegible]. Patrons often eat leisurely [illegible].

[illegible] in the Broadway section gave a fortune [illegible] the obliging barkeep. He [illegible] extra cup of coffee or a slice of pie [illegible] house." He is known as Joe, Billy or [illegible] and most of his working life [illegible] on buying a diamond stud on the installment plan.

[illegible] along is minted in the one-arm [illegible] and two or four-a-day vaudeville [illegible] hanging around [illegible] have been made in a few [illegible] becoming a little hole in the [illegible] of eateries.

[illegible] lunch room will pop [illegible] popularity and often to protect [illegible] threads of competition the proprietor [illegible] open other places in the neighborhood [illegible]. On upper Broadway, for instance, [illegible] Hanover. A few doors away is the Hanover [illegible] same back yards, under the same management.

[illegible] rooms offer varied ideas in decoration. There are those white-tiled sanitized places, the heavy mahogany spots with windows filled with Danish pastry, the sandwich bars with pink spiced hams and huge roasts and white-capped slicers.

There are the "Coffee Pots" with big shiny urns, the [illegible] havens with glass-topped [illegible] and grandiose sandwich palaces with white marble counters and nickel-plated revolving stools cushioned with leather.

And the glorified delicatessen places—like Reuben's—with gold-braided carriage starters [illegible].

There [illegible] of middle-aged retired men in New York known as "Board Room Men." From 10 a. m. until the exchange puts up the shutters they are found in board rooms of brokerage offices. They are not heavy gamblers and consequently their winnings and losings are not large. They are singularly crisp and aloof—rarely accepting tips or giving them.

* * *

Dave Stamper, a gifted composer, and Edna Leedom, an equally gifted comedienne, could not find congenial companionship in marriage, but they did in divorce. Their marriage went on the rocks and each went to a separate apartment. Mr. Stamper began writing music for a play for his erstwhile wife. They visit cafes and theaters together and along Broadway they are known as "pals." Wilson Mizner used to say: "Many men have lost their best friends by marrying them."

* * *

There is another New Yorker who once [illegible] in theatricals. He married twice and from each wife has been divorced. Now all three are warm friends. When he takes one out to dinner or the play **he usually takes the** other. None has married and strangely enough he is paying alimony to each. Just an alimony glutton.

* * *

Too, there are many of those club husbands in the metropolis. Mostly they have married in the winter of life and arranged not to give up the ease of bachelordom. They live at clubs and their wives are established in their own apartments. Several times a week they have dinner and see a play together and to all appearances are content.

* * *

One husband has his own apartment on the floor below that of his wife in a big Park avenue apartment house. Neither calls on the other without being announced. Formal, what? I am told they discuss money matters only through their banker. Incidentally, "the dew is still on the rose" in Fannie Hurst's separate menage marriage. It has proved a success.—Copyright, 1927.

Dinner Stories.

The departing guest had been given his bill, and shortly afterward the manager said to the head waiter:

"You gave the man in room 20 his bill, didn't you?"

"Yes, sir," was the reply.

"I didn't forget to charge for anything, did I?" inquired the manager.

"Not that I know of," answered the waiter.

"Strange, very strange," muttered the other; "I can still hear him whistling."

Mistress—to departing maid who has asked for reference: "Of course, Mary, I shall have to tell Mrs. Brown of your uncontrollable temper."

Mary: "Thank you very much, Mum. It'll p'raps make 'er mind 'er P's and Q's."

Charles M. Schwab, while getting some steel contracts in Russia, was asked concerning a young man who had been with him on a previous visit. "I'm sorry to say he was killed by a revolving crane," answered the steel magnate.

"Good gracious, what fierce birds you have in America!" was the utterly unexpected comment.

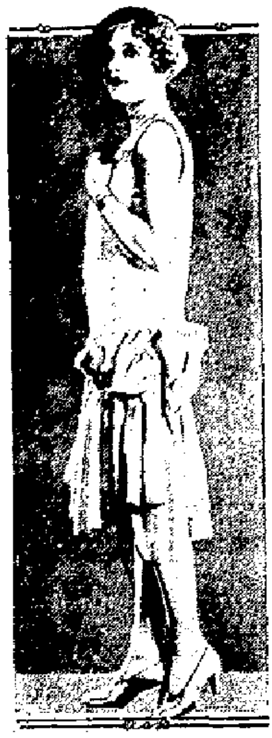
WAISTLINE STILL LOW



BY MME. LISBETH

THE position of the waistline today is generally far from normal, despite rumors and occasional examples that stress the more familiar line.

This new fall evening frock of sea green taffeta features a low line, emphasizing it with a huge bow at the side caught at the edge of the more than hip-length bodice. The skirt falls in ruffled fullness just at the knee, in the popular uneven hem that is one of the season's most pronounced modes.

Flavored
with just the things
you like best in
baked beans

Richly flavored
with delicious sugar-cured
prime pork and lots of molasses
and brown sugar

What a difference there is between *good* cooking and the more mediocre sort! Often the secret lies largely in the generous use of ingredients that give richness and flavor. An extra egg, an extra bit of butter—these may make a cake or a sauce into a festive delicacy, instead of mere food.

The little more that makes *the difference*—that's what makes Bean Hole Beans so good!

Lavishly, generously, molasses and brown sugar are poured in. A big piece of delicious, prime pork goes in.... for Bean Hole Beans are made according to an old-time recipe.

Never until now has anyone succeeded in matching the flavor and tenderness of beans baked as the old pioneers used to bake them in the outdoor earthen oven called the "bean hole" which produces the finest baked bean flavor known.

In the Maine logging camps "bean hole" beans are still popular. All night long the big iron beanpot rests in its bed of glowing embers—till the long, slow cooking has baked the beans to an even brown tenderness with a flavor that seems to have all the fragrances of the forest itself.

Now for the first time you can taste beans like that—Bean Hole Beans.

Two sizes—medium *and* large.

For homes without electricity, the Maytag is available with in-built gasoline motor.

52 Good Reasons
Why you should own a
MAYTAG

THERE are 52 washdays in a year—therefore 52 *extra holidays* when a Maytag does your washing. Reasons enough for selecting this popular washer. Certainly ample reason for trying it—in your own home—on your own week's washing—and determining for yourself the Maytag's unrivalled washday helpfulness.

A Maytag does your week's washing in an hour. Its turbulent water action washes all garments clean without hand-rubbing—even cuffs and collars.

The roomy, non-corroding cast-aluminum tub keeps water hot during the entire washing and cleans and empties itself when the washing is done.

The 7-way swinging wringer adjusts itself to either a handkerchief or blanket and wrings both dry. The Maytag does *all* the washing work — and does it in record breaking time.

Every washday is a reason for owning a Maytag—a reason best expressed in added hours of recreation or rest.

Maytag dealers everywhere follow the standardized rule of sending a Maytag to a home to do a week's washing free, and without obligation of any kind. This is the way all Maytag Gyrafoam Washers are sold. The Maytag *must* sell itself solely upon its performance in the home. It *must* wash everything to your entire satisfaction. *Must* wash everything quicker, easier and cleaner than other washers. *Must* wash everything—even collars, cuffs and wristbands, without hand-rubbing. *Must* prove to you, in your own home, that it is the most helpful home-laundering unit you have ever seen or used.

Murdered sleep

SLEEP that brings no soothing rest. Empty sleep—that drives tense nerves and aching muscles back to weary bodies! No wonder people crack and break when precious sleep is murdered.

What a tragedy that so few realize the suffering constipation causes! It ruins health and wrecks beauty. It saps strength. It murders sleep! It sickens the body and causes disease after disease. And it could all be so easily relieved. Kellogg's ALL-BRAN is guaranteed to relieve constipation safely, promptly.

Why part-bran products fail!

ALL-BRAN has "bulk." This bulk absorbs moisture and carries it throughout the intestines — gently distending them—purifying, removing poisonous wastes. In a part-bran product the quantity of bulk is so small that there is seldom enough to do this work. That is why doctors recommend ALL-BRAN because it is 100% bran—100% effective.

Kellogg's ALL-BRAN is sold with this definite guarantee. Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

No need for habit-forming pills!

How different from dangerous pills and drugs—which become useless unless the dose is constantly increased! ALL-BRAN is delicious with milk or cream—and add fruits or honey. Let it soak a few moments to bring out all its flavor. Serve with other cereals. In soups. Try recipes on every package. Eat two tablespoonfuls daily—in chronic cases, with every meal.

Don't accept a part-bran substitute. Insist on genuine Kellogg's. Sold by all grocers. Served at hotels, restaurants — on diners. Made by the Kellogg Company in Battle Creek, Mich. Write for free "Treatise on Constipation."
